Recebi 18 (dezoito) caixas
contendo o material abaixo
descriminado, exceto o último Rio, 18 de novembro de 1983
mo item.

Geraldo Sarno

Dear Raul,

I think that by now you are aware of our AGENDA FOR A SMALL PLANET, PHASE II project. Mr. Geraldo Sarno, a Brazilian film maker is one of the producers in this second series. He has recently been here at Headquarters to sign his contract with Radio Canada. As you know, our part in this series is to facilitate the production of these films. In this particular case this involves film and tape raw stock much like we did in the WOMEN'S AGENDA series some time earlier this year.

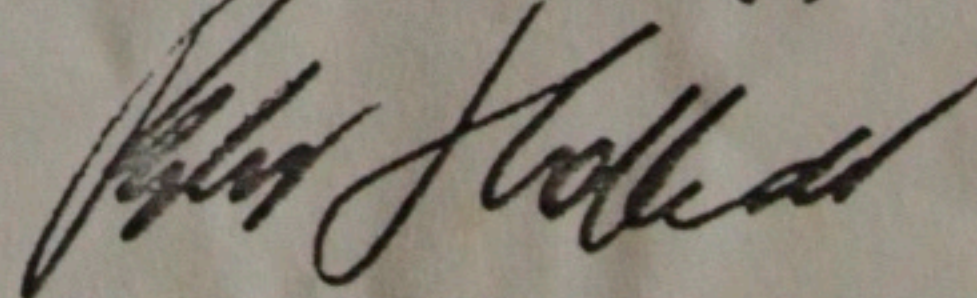

I am preparing to send you the following items with the next possible pouch.

- 8)
- 70 rolls of Kodak 7291 film in 400 ft. rolls.
 - 10 rolls of Kodak 7294 film in 400 ft. rolls.
 - 96 rolls of MMM No. 209 magnetic tape in 900 ft. rolls.
 - 42 rolls of MMM No. 337 16mm magnetic film in 1,200 ft. rolls.
 - 1 Lowell Light Kit and extra bulbs.

Please keep all this material in a cool place until Mr. Sarno contacts you to pick it up. He is returning to Rio this week and will call you even if the material has not yet arrived.

Thank you for all your help in this matter.

Yours sincerely,

Peter Hollander
Chief, Feature Production Section
Visual Service, RVSD/DPI

Mr. Raul Trejos
Director
